

RID pumping system

The MMC First Process RID pumping system open up new ways to transport and distribute fish and other products.

RID pumping system

The product is gently transported in water in a closed system, Variable speed and capacity makes it possible to control the flow. The closed system makes it possible to transport products over long distances. The RID pump is chosen based on the size of the product, distance and lifting height.

Model	Dimensions L*W*H [mm] Excluding breathers.	Pumping height [m]	Flow [m ³ /h]
RID-150-1535-9	2300*1800*1900	6,2	64
RID-200-2000-7	2000*2300*2400	6,5	148
RID-250-2500-8	3200*3000*3100	8,1	236
RID-300-2900-7	3500*3200*3300	7,8	380
RID-400-2800-7	4000*3200*3300	7	660
RID-500-3000-7	5900*3700*3700	7	1120

MMC First Process has years of experience as a supplier of fish handling systems, that has both fish welfare and sustainability as its main focus. Transport and movement of fish in a gentle and humane fashion, ensures both enhanced fish welfare and high quality of the product that reaches the market.

The company has a wide range of products, ranging from specialized pumps, graders, water treatment systems, RSW systems, through to washing systems, packing lines and more.

*We truly are a **total** supplier for fish handling.*

- Low energy consumption
- Continous flow
- Less manual cleaning
- Variable speed
- Gentle and hygienic transport
- Space efficient
