

CO₂ strippers

With a combination of the X-AIR™ element and the cross flow principle, the MMC First Process CO₂ strippers removes CO₂ from water with high efficiency.

CO₂ stripper

The X-AIR™ element maximizes the water surface area, and the cross flow system removes CO₂ efficiently. The foam creation is minimized.

CO₂ strippers can be delivered in following sizes:

Model	Nominal water flow [m ³ /h]	Air flow [m ³ /h]	Recommended max biomass	Dimensions L*W*H [mm]
1000	1 000	10-15 000	140T adult salmon, 90T smolt	4075*2815*6475
1500	1 500	10-15 000	200T adult salmon, 125T smolt	4235*3355*6855
2000	2 000	10-15 000	265T adult salmon, 170T smolt	4235*4115*6850
3000	3 000	20-30 000	400T adult salmon, 250T smolt	8180*3790*6855

MMC First Process has years of experience as a supplier of fish handling systems, that has both fish welfare and sustainability as its main focus. Transport and movement of fish in a gentle and humane fashion, ensures both enhanced fish welfare and high quality of the product that reaches the market.

The company has a wide range of products, ranging from specialized pumps, graders, water treatment systems, RSW systems, through to washing systems, packing lines and more.

*We truly are a **total** supplier for fish handling.*

- High water flow capacity
- Suitable for vessels aswell as for land based farming
